

## Biological Microscope 40X, 100X, 400X

This biological microscope is an excellent instrument for students (high school and college) to learn science. It comes with full optical glass elements, solid metal body, and a 45 degree inclined monocular head with locked-in eyepiece. It offers three levels of magnification, 40X, 100X and 400X.

### Features:

- A Great Student Microscope
- Excellent Instrument Easy to Operate.
- 45 Degree Inclined Monocular Head with Locked-in Eyepiece
- Plain Stage with Clips and Stain Resistant Finish
- Fully Coated Optical System
- High Resolution Offering Sharp Images
- Three Levels of Magnification: 40X-100X-400X
- One (WF10X) Eyepiece Included
- Built-In Illumination System
- Single Lens Condenser and Disc Diaphragm
- Focusing Control Knobs on Both Sides
- Full Optical Glass Elements
- Precise Ground Glass Lens
- All Metal Mechanical Components
- Solid Metal Frame with Stain Resistant Enamel Finish

### Specifications:

- Head: 45 degree inclined monocular.
- Eyepiece: wide-field WF10X.
- Objectives: 4X, 10X, 40X.
- Stage Dimensions: 3-1/2" x 3-1/2".
- Illumination: 6W incandescent bulb.
- Power Supply: 110V/60Hz.
